

Презентация по лабораторной работе №10

Основы работы с модулями ядра операционной системы

Амина Аджигалиева

22 октября 2025

Российский университет дружбы народов, Москва, Россия

Цели и задачи работы

Получить навыки работы с утилитами управления модулями ядра операционной системы Linux.

Ход выполнения работы

Управление модулями ядра из командной строки

Вывод

В ходе выполнения лабораторной работы я изучила принципы работы с модулями ядра Linux.

Научилась просматривать и анализировать модули, выполнять их загрузку и выгрузку, получать информацию о параметрах, а также обновлять ядро системы.

Полученные знания позволяют уверенно управлять компонентами ядра и сопровождать Linux-систему на уровне администратора.
